Anna High School

1107 Rosamond Pkwy

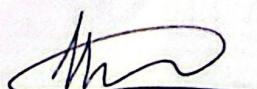

Anna, TX 75409

Dear Texas Association of Student Councils,

Anna High School's council has been an active participant in the Texas Association of Student Councils for two decades. Moving forward, Anna's student council wants to further its commitment by officially running for District 3's 2026-2027 parliamentarian with Layan Al Jararheh as our representative. Our council promises to fulfill the responsibilities and conduct of TASC.

Anna High School's student council presents the message, "Social Games: Be You," to raise awareness of the rising epidemic of conformity amongst our generation. Our council believes that social media is a contributing factor to the loss of individuality. Whether we realize it or not, social media has enforced consumerism and beauty standards and promotes isolation. What started as a way for society to connect has become our leading cause of depression, body image issues, and more.

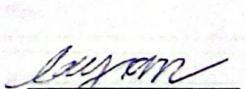

With our campaign, Anna High School aims to promote nonconformity across student campuses. We envision a future for District 3 where students can embrace themselves for who they are, regardless of social media influence. Through curiosity and acceptance, students can acknowledge that their differences are what make each person special, not less. No longer should a student dim their own light to fit in with others. Therefore, Anna High School Council strives to celebrate students' individuality across several campuses.
