Texas Association of Student Councils,

Central High School Student Council respectfully submits our proposal to host the Texas Association of Student Councils District 3 Fall Conference in 2026.

Our Student Council is made up of students who are deeply committed to leadership, service, and creating positive change within our school and community. While our council represents fewer than five percent of the student body, its influence reaches far beyond that number. Our members serve as role models for their peers and consistently lead by example through service initiatives, school spirit efforts, and student engagement opportunities.

Over the years, Central High School Student Council has built a strong foundation of leadership within District 3 and TASC as a whole. Our council has proudly hosted District 3 conferences three times, giving our students hands-on experience in planning, organizing, and executing large-scale leadership events. In addition, our members have served in multiple District 3 leadership roles, including Recording Secretary, Corresponding Secretary, Parliamentarian, and President, as well as at the state level as TASC Parliamentarian and Vice President. These opportunities have allowed our students to develop the skills necessary to collaborate, communicate effectively, and support schools across our district.

As a tentative vision for the 2026 Fall Conference, our Student Council proposes the theme **"Lead Is the Word."** This theme emphasizes our desire to focus on the power of language, action, and example in leadership. Students are constantly communicating through their words, decisions, and behaviors, and this theme encourages leaders to be intentional about how they represent themselves, their schools, and their communities.

With the support of our experienced advisor and active campus administration, Central High School Student Council is well prepared to host a conference of this size, having successfully served as a three-time District 3 host school. Our students have direct experience managing registration and check-in, session scheduling and room assignments, speaker hospitality, meal and vendor coordination, and detailed setup and tear-down timelines. Our strong history of student leadership at both the District 3 and state TASC levels, ensures a clear understanding of expectations and protocol.

Central High School Student Council is eager to welcome District 3 schools in 2026 and provide a conference experience that is engaging, organized, and centered on student leadership. We are confident in our ability to support the mission of TASC by promoting active school and community involvement, developing leadership skills, and empowering student leaders.

Thank you for your consideration of our proposal to host the 2026 TASC District 3 Fall Conference.

Sincerely,

Principal

Student Representative

Advisor
